Career Objective

- B.Tech undergraduate in Artificial Intelligence & Data Science at IIT Patna with strong interest in software engineering and backend systems. Experienced in building secure, scalable full-stack applications using modern web technologies. Currently deepening hands-on skills in Generative AI, LLM workflows, and applied machine learning. Seeking SWE internship roles to contribute to real-world systems while growing as an engineer.

Education

- Indian Institute of Technology, Patna** *Aug 2024 – Jul 2028*
Bachelor of Technology in Artificial Intelligence & Data Science
CGPA: **8.88 / 10**
- M.D.J Public School**
Higher Secondary (PCM): **96%**
Class X: **97.5%**

Projects

- SecureVote – Decentralized Voting Platform** *MERN, Cryptography, OAuth*
Designed and implemented a privacy-preserving campus voting system using Linkable Ring Signatures to ensure voter anonymity and integrity.
Implemented secure authentication using Google OAuth, backend validation, and role-based election workflows.
Built RESTful APIs for election lifecycle management and deployed a full-stack production setup.
GitHub | Live Demo
- Personal Portfolio Website** *React, Tailwind CSS, GSAP, Framer Motion*
Developed a modern, responsive portfolio showcasing projects with smooth animations and interactive UI components.
Focused on performance, clean component architecture, and maintainable styling.
Implemented scroll-based animations and transitions using GSAP and Framer Motion.
GitHub | Live Demo
- AnimeMate – AI Chat Companion** *React, Node.js, Gemini API*
Built a conversational web application enabling users to interact with anime-style AI personas.
Integrated LLM APIs for controlled personality-based responses and prompt structuring.
Designed a themed frontend with reusable components and real-time API interactions.
GitHub | Live Demo

Skills

- Languages:** JavaScript (ES6+), Python, C/C++, SQL
- Frontend:** React.js, Next.js, Tailwind CSS, ShadCN UI, GSAP, Framer Motion
- Backend & Databases:** Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, Supabase, Prisma ORM
- Authentication & Security:** OAuth 2.0, JWT, Cryptographic primitives
- AI / GenAI Exposure:** Machine Learning fundamentals, LLM APIs (OpenAI, Gemini), prompt engineering, basic fine-tuning workflows, RAG concepts

Leadership & Extracurricular

- Web Development Lead – Google Developer Groups (GDG), IIT Patna**
Led web development initiatives for workshops and hackathons; mentored peers in frontend and backend fundamentals.
- Core Team Member – NJack (Technical Club, IIT Patna)**
Contributed to open-source projects and assisted in organizing technical sessions and coding events.
- Event Sub-Coordinator – Celesta & Infinito**
Managed logistics and coordinated teams for institute-level technical and sports festivals.
